She claimed that the ladies' work should be confined strictly to the legitimate mission of trying to influence morality and right living among the hundreds and thousands of young men who are found in the various cities and towns of California.

When Lin coln was assassinated there were many Re ablicans in Washington who suspecte has Johnson had had a hand in his taking off, in order to forward his own ends. The eeling between him and them was of a proud disposition and felt his power as President. In fact, he thought he had ore power than actually belonged to him He probably supposed that by a cour d'etat with regard to the South, he migh not only gain its support for a second Presi dential term, but also punish those Repub-licans whom he considered his enemies. He ntended to show them that he was master. The amnesty itself was looked on more a a matter of questionable policy than probable treason. It was said then that Lin In, shortly before his assassination, exessed himself in favor of restoring a heir rights to the people of the South after Senator Cole asked: "If all this be true

Advice to Mothers.—Mrs. Winslow's SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes.
